### Laser Clay Pigeon Shooting

Try your hand at laser shooting at Eaton Manor

We work with a fantastic local company that supply this fascinating, addictive, fun and safe form of the skillful sport of clay pigeon shooting, or alternatively the Smart Target indoor shooting system.

Laser Clay Pigeon Shooting is one of the most popular participation activities for any event, and can be enjoyed by everyone.

Our supplier, Laser Clays Entertainment Ltd, has fully trained operators who will quickly get you hitting the clays and competing with the others in the group.

Each participant will be supplied with a modified shotgun that fires an infrared beam at modified real clays launched from a clay launcher. When the shotgun trigger is pulled, the digital scoreboard generates the shotgun sound effect and if the clay is hit, the sound of a breaking clay is produced. It is 100% authentic, except there is no kick-back, so it is safe and can be used in confined venues.

**Smart Target Indoor System:** For indoor use, there is the option to use the Smart Target Indoor System which is fitted into unique free-standing 6ft Zombies, with a special scene back drop. This is fast, furious and fun.

#### What is Nordic Walking?

Invented in Finland as summer training for cross-country skiers, Nordic Walking became a popular and safe activity for people of any age and of different fitness levels. It is now one of the fastest growing fitness sports in over 40 countries around the world.

#### Why it is so popular?

Because it is so effective! It is a full body workout, which involves 90% of body muscles. By increasing the heart rate it helps you to burn fat and lose a few unwanted inches. It significantly increases calorie burn from 280 to 400 calories compared to just normal walking!

#### Who is Nordic Walking for?

It's for people of any age and fitness level. You can choose a gentle session for health to simply relax your muscles (reducing muscle tension in the neck and shoulder region, mobility of the neck and spine may increase), or dynamic training, which improves aerobic capacity to tone and shape your body. The best way is to enjoy it with a friend or with a group, because unlike working out in the gym it is a truly sociable activity!

Prices from: **£25.00 per hour (for 1 – 2 people)**  
**£10.00 per head per hour (3 – 5 people)**
